

The Elmhurst *Medical* brand book.

Everything you need to make on-brand
flyers, social posts and content — colors,
type, logo, voice and templates.

Elmhurst Medical · Primary & Walk-In Urgent Care
40-16 74th Street, Elmhurst, NY 11373 · (718) 682-7090 · elmhurstmedical.com

The brand at a glance.

If you only remember one page, remember this one. It captures who we are and how we look and sound.

POSITIONING

"For the families of Elmhurst — across cultures, languages and generations — we're the primary & urgent care home that already feels like yours: modern, warm, and fluent in who you are."

MISSION

Care in your language

Great primary and walk-in urgent care for everyone 16+, delivered warmly and in the language you speak at home.

PERSONALITY

Warm · modern · human

Optimistic marigold, trustworthy forest green, and a friendly voice — never cold or clinical.

TAGLINE

"Fluent in who you are."

Also: "Care that speaks your language." Lead with belonging and the patient's real worry.

Our colors, fast

Marigold #F4A81D · Forest #123F33 · Teal #0F7A6B · Coral #E97A6D on a warm cream ground.

Our type, fast

Bricolage Grotesque

for headlines. Plus Jakarta Sans for body.
Fraunces italic for accents.

Wordmark set in Hanken Grotesk. Bengali in Noto Sans Bengali.

Our signature lockup.

The primary logo is a stacked lockup: **Elmhurst** in forest green, with the bloom mark and **MEDICAL** in marigold beneath it.

ON DARK

THE BLOOM MARK ALONE

Use the flower on its own as an app icon, stamp, favicon or social avatar.

Construction: "Elmhurst" is Hanken Grotesk Black (900); "MEDICAL" is Hanken Grotesk ExtraBold (800), uppercase, in marigold #E5920E. On dark backgrounds, "Elmhurst" flips to white while "MEDICAL" stays marigold.

Clear space & what not to do.

Give the logo room, keep it legible, and never redraw it. When in doubt, use the approved artwork.

Clear space

Keep clear space around the logo at least equal to the height of the flower mark.
Never crowd it with text or graphics.

Minimum size

Don't use the full lockup smaller than ~28px tall on screen or 0.4" in print.
Below that, use the flower mark alone.

PLEASE DON'T

Recolor the logo

Elmhurst Medical

Swap the fonts

Rotate or skew it

Place on a busy/low-contrast
bg

Stretch or condense

✓ Approved lockup

One flower for a whole community.

The marigold is celebratory and sacred in South Asian culture (*genda*) and the heart of Latino tradition (*cempasúchil*). It's our bridge — not clinical blue-and-white.

What it's made of

Marigold petals — warmth, optimism, welcome.

Teal center — the health & healing cue.

Coral heart — human care at the core.

How to use it

As a logo mark, an app/social icon, a stamp on forms, a bullet or divider, a loading animation, and a physical motif in the waiting room. Keep it full-color on light or dark grounds; don't recolor the petals.

✿ Bienvenidos

✿ স্বাগতম

✿ स्वागत है

✿ خوش آمدید

✿ Welcome

Marigold-led, grounded in green.

Instead of the clinical blue-and-white most medical brands default to, we anchor on marigold, add coral warmth, and ground everything in deep forest green on a warm cream.

PRIMARY

 Aa	 Aa	 Aa
#F4A81D RGB 244, 168, 29 Marigold Primary brand color. Optimism and the cultural bridge — genda in South Asian tradition, cempasúchil in Latino tradition. Fills, buttons, highlights.	#123F33 RGB 18, 63, 51 Forest Green The deep anchor. Large blocks, footers, headings, primary buttons. Trust — without cold, corporate navy.	#0F7A6B RGB 15, 122, 107 Healing Teal The health cue and mid-tone. Links, secondary buttons, and the flower's center. Carries white text.

NEUTRALS & GROUNDS

 Aa	 Aa	 Aa	 Aa
#FCF7EE RGB 252, 247, 238 Warm Cream The ground for every page. Human and easy on aging eyes — never clinical white.	#F3E9D7 RGB 243, 233, 215 Sand Warm panel and section background; table headers.	#E7EFE5 RGB 231, 239, 229 Sage Soft, calm panel for callouts, cards and tags.	#F8E7DB RGB 248, 231, 219 Peach Soft warm panel and tags.

The rest of the system.

 Aa #E97A6D RGB 233, 122, 109 Coral Warmth and energy for a younger audience; the flower's heart. Use as a spark, sparingly.	 Aa #221E17 RGB 34, 30, 23 Ink Warm near-black. All body copy.	 Aa #5E574A RGB 94, 87, 74 Slate Muted Secondary text, captions, fine print.
--	---	--

SUPPORTING TINTS (FILLS, BORDERS, HOVERS)

 Marigold Soft #FBE7BE	 Marigold Deep #B4780A	 Forest 2 #1B5142	 Coral Deep #C8443B	 Line #EBE0CC
--	--	---	--	---

✓ Do

- Use cream as the default background — warm, not stark white.
- Put white text on forest, teal or coral fills.
- Use marigold as a highlight/fill behind dark or large text.
- Reserve coral as a spark, not a main color.

✗ Don't

- Don't set small marigold or coral text on cream (fails contrast).
- Don't introduce clinical blue or pure #FFFFFF grounds.
- Don't put forest text on teal or coral (too low contrast).
- Don't use more than 2-3 fills in one layout.

Accessibility: forest and teal carry white text at WCAG AA. Marigold, coral and sage are fills behind dark or large text only. Everything is sized generously for older readers.

Bold to lead, clean to read. Care that speaks your *language*.

Jakarta Sans, Fraunces and Hanken
Grotesk. Keep line length ~50-65
characters.

Warm, plain, and human.

We write the way a trusted neighbor who happens to be a doctor would talk — clear enough for a 10th-grade reader, in any language.

Plain

Short sentences.
Everyday words. Explain any medical term the first time you use it.

Warm

Lead with the patient's real worry, not the service. Reassure; never scare or shame.

Belonging

Multilingual by default. Speak to the whole family and every generation.

✓ Sounds like us

- "Talk to a doctor who has time for you."
- "In the language you speak at home."
- "Not sure if it's worth a visit? It probably is."
- "New patients welcome — call, text, or book online."

✗ Not us

- "Utilize our comprehensive care modalities."
- Dense clinical jargon with no explanation.
- Fear-based or guilt-based messaging.
- Corporate, distant, or over-promising claims.

ONE LINE TO REMEMBER

Meet people where they are — in their language, with respect, and without the wait.

Real people, warm light.

Photography should look like Elmhurst actually looks — diverse, multigenerational, candid and respectful. Warm, natural light on our sage/cream/sand tones.

Illustration & icons: simple, rounded, friendly line/emoji-style marks that echo the bloom's soft geometry — never thin, corporate, or overly technical.

The pieces that repeat.

Use these shapes so flyers, posts and the website feel like one family. Everything is soft-cornered and generous.

Buttons

Fully rounded (pill). Forest = primary, marigold = friendly, teal = booking.

Pills & tags

Uppercase, bold, tiny. For labels and highlights.

Cards

White or sage panels, 16px radius, hairline #EBE0CC border, soft shadow. Roomy padding.

Corners & spacing

Radius 12–26px. Big margins. Let content breathe — whitespace is part of the brand's calm.

Rounded flower bullet ☆

use the bloom as a list bullet or divider.

Highlight underline

marigold bar under a key word.

Copy these layouts.

Drop your own words in. Keep the flower, the type and the color pairings and it will always look on-brand.

40-16 74th Street, Elmhurst, NY 11373

(718) 682-7090 · elmhurstmedical.com · Book on Zocdoc

Flyer / half-page handout (portrait)

DO & DON'T RECAP

Flower up top. Big headline. Languages + phone at the bottom. Cream or white ground.

Content order that converts

1) Who it's for → 2) What we offer → 3) Why us (language, hours, price) → 4) How to reach us. Always end with the phone number and Zocdoc.

Keep it accessible

Minimum 10–11pt body for print, high contrast, and generous spacing — many readers are older or reading in a second language.

The faces of Elmhurst Medical.

Approved provider headshots, cleared for use across the website, social posts, flyers and press. Keep them on a sage or cream backdrop with softly rounded corners.

**Dr. Choudhury Hasan,
MD**

Internal Medicine · Primary Care

**Dr. Ferdous Salauddin,
MD**

Internal Medicine · Primary Care

Keerthana Rajagopal, PA

Physician Assistant · Urgent &
Primary Care

How to use them

Pair a headshot with the provider's name and credentials. Round the corners (12–16px) to match the brand. Great for "meet the team" posts, appointment cards, and press.

Files provided

Each headshot ships as PNG and JPG in the brand-assets pack (web resolution). Ask the practice for high-resolution originals before large-format print.

QUICK REFERENCE
